

We Are Taking Our Communication System

To The Next Level!!

We are thrilled to announce that we have successfully launched our new communication system with Lighthouse 360! Lighthouse 360 is the leading patient communication system for dental practices and is designed to optimize our growing practice and allow us to dedicate our full attention to our patients.

Lighthouse 360 is similar to our previous communication system but with some added features. One exciting feature Lighthouse 360 offers is that it detects last minute schedule changes and automatically reaches out to patients who are overdue for their professional cleaning or have requested a more immediate appointment time.

We Need To Hear From You!

Please take the time to confirm your appointment. Communicating with our patients is one of the most important elements to our practice. Lighthouse 360 allows you to confirm your appointment with a simple click of a button.

Your Time With Us Is Reserved Only For You!

When you schedule an appointment, we reserve that time just for you with our dental staff and doctor. We are committed to honoring the appointment time of our scheduled patients, so it is critical that you confirm your appointment. We understand today's world is hectic so we are making every effort to make confirming your appointment as easy as possible.

Please Don't Ignore Us!

Next time you get communication from our office please do not ignore it. If you can't make your appointment, call us and let us know so we can help someone else get the care they need.

We are dedicated to giving our patients the best customer care possible!
